Description

Exotique

- Sensual, with ylang ylang & lavender

Our hand and body lotion is made with natural and organic ingredients and vegetal oils - no waxes - that penetrate deep within the layers of the skin, nourishing the skin without leaving it feeling oily or clogging the pores. It goes on light and smooth, not heavy or thick like typical lotions that contain waxes, and it leaves your skin feeling soft and silky. This is a product that is safe and gentle enough to use on babies or the elderly. It may also be used as a light facial moisturizer. We also offer an unscented hand & body lotion for those who are sensitive to fragrance or who wish to customize with their own choice of essential oils (1-3% essential oils added is within the normal range). Our lotion is highly concentrated – a little goes a long way.
