### Description

**Description:**

Shea Butter is an ideal material for sensitive or chapped skin, for softening of calloused skin on feet, hands and elbows, as well as to deter scarring. It is a naturally occurring blend of vitamins and fatty esters which provide protection from harsh environmental conditions and give skin elasticity. Oblige by nature Shea Butter is organic and unprocessed to maintain the highest level of natural nourishment for your skin. Whipped with organic olive oil and organic Patchouli essential oil, this product has a luxurious scent and spreads easily over rough skin.

**Directions:**

Use on slightly damp skin, for best results use an Oblige hydrolate or Fluid Body Moisturizer to provide this moisture. Apply a small amount of Shea Butter between palms, and rub quickly to warm and soften product. Massage over pre-moisturized skin until product is dispersed and skin is soft and supple. Use on a daily basis as often as necessary.
